Re: LIXIL Americas Products Compliant with the Trade Agreements Act (“TAA”)

To whom it may concern,

The Trade Agreements Act (“TAA”) permits U.S. Government and affiliated entities with federal contracts to purchase end products made or substantially transformed within the United States or other TAA designated countries. The TAA is intended to foster fair and open trade.

LIXIL Americas currently offers a wide range of products that meet TAA standards. After a careful review, we have determined that our products identified in the attached tables are TAA compliant. LIXIL Americas therefore understands that they are generally eligible for U.S. government projects.

Should you have any questions about these products, or any products not listed in the following tables, please contact your designated salesperson directly.

Sincerely,

Kellene Safis
Leader, Sales LIXIL Americas
